SCOTT KASTLER  
PRIMARY EXAMINER

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: Each of the instant claims 21-30 are allowable over the cited prior art at least because none of the cited prior art shows or fairly suggests a refractory stopper with an electrically conductive coating, where the coating is further electrically connected to a control means in order to control or affect the flow of molten metal. The closest applied prior art (LaBate) teaches the use of a coating which is electrically conductive (graphite) however, LaBate employs the coating in order to avoid sticking, rather than for the formation of an electrical circuit, and therefore does not fairly suggest to one of ordinary skill in the art at the tie the invention was made the further step of providing electrical connection to a control circuit as required by all of the instant claims.

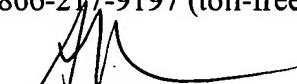

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Kastler whose telephone number is (571) 272-1243. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King can be reached on (571) 272-1244. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
